

Featured Product: Model VS301

The Value Series is our response to the low cost imported stanchions. This series contains many of the same features as the tried and true Model 300 Retracta-Belt®, which has become an industry standard for price, quality and dependability. The new 10' belt length gives you the best value for your dollar; less posts to buy, less posts to store. This post is a high quality stanchion sold "flat packed" in sets of 2. Simply place the baseweight on the floor and hand screw in the post. High manufacturing quantities, innovative packaging and simplified options have driven down the cost but not the quality.

Features

- ▶ **Reengineered braking system:** creates the safest post on the market
- ▶ **Knocked-Down shipping standard:** saves over 50% on shipping charges
- ▶ **2 year warranty**
- ▶ **Built-in sign attachment:** no costly adapters
- ▶ **Heavy cast iron baseweight:** with rubber floor protectors
- ▶ **Black ABS scuff proof base cover:** on both finishes
- ▶ **High impact polycarbonate material:** greatly increases durability
- ▶ **Universal belt clip:** allows integration with many other manufacturers' units
- ▶ **Ergonomic belt end:** with noticeable red slide-action lock
- ▶ **All parts easily replaceable**
