

## Heavy duty, secure and weatherproof crowd control barriers.

Uprights insert into frame before welding; strong and durable connection resists damage from broken welds.

### Durable and secure hooks:

- ▶ Inserted and welded into frame at both inner and outer connection points which is stronger than a surface weld.
- ▶ 45° hook end is tamper-resistant to prevent an unauthorized person from lifting and separating the barriers.

**No tools required** to install or remove feet. Easily connect with quick pin and bolt.

**Flat feet reduce tripping hazards** and are ideal when Steel Barricades are used on a flat surface.

Two holes in each foot provide space for rubber floor protector pads (sold separately) or allow the unit to be permanently affixed to the ground.

<b>Frame Material</b>	<b>Hot-Dipped Galvanized Steel</b>
<b>Feet Material</b>	<b>Hot-Dipped Galvanized Steel</b>
<b>Overall Length</b>	<b>96"</b>
<b>Overall Height</b>	<b>42.75"</b>
<b>Overall Weight</b>	<b>40 lbs.</b>

**Features**

- ▶ Hot-dipped galvanized steel for outdoor use.
- ▶ 8' length.
- ▶ Flat feet.

**Model # SB800HD3F-GV**
