### RETRACTA-BELT® STANCHIONS

Tried and true stanchion that has been proven for decades to be the safest and most durable post on the market.

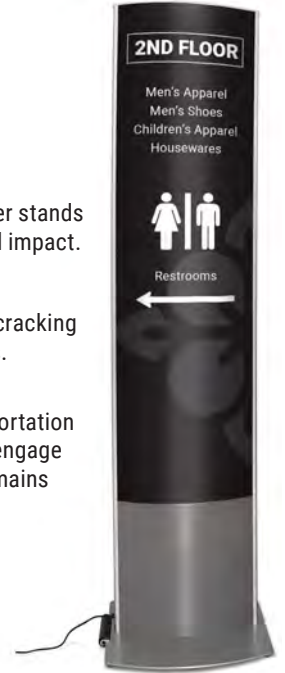

- Single or Dual line posts with 10' or 15' long belts.
- Versatile base options, including our aesthetically pleasing Mini Socket mounts, which are easily installed with minimal surface impact to your floors.
- Sturdy cast iron bases feature our exclusive EVERstraight® Technology, ensuring the post remains straight for it's lifetime.
- Customizable with hundreds of stock and specialty finishes and belt options.

### VERSA-STAND SIGN TOWER

The prominent **VERSA-STAND** Sign Tower stands out above the crowd for maximum visual impact.

- Two available heights: 72" or 92" tall.
- Durable PETG signage panels prevent cracking and withstand heavy use environments. Alternative materials available.
- Tilt & Roll wheel allows for easy transportation when the Sign Tower is angled, yet disengage when it is upright to ensure the unit remains stationary.
- Illuminate the Sign Tower with optional lighting for even greater visibility.
- Outdoor versions available.

### POST-N-PANEL

Premium construction heavy gauge aluminum frame withstands the toughest wear and tear.

- Ideal for defining a queue line perimeter.
- Generate revenue through co-op advertising with prominently displayed graphics.
- Easy change graphic panels available.
- Privacy panels up to 8' tall create a booth for security screening areas.

### STEEL BARRICADES

Rely on durable, secure, weatherproof crowd control barriers to guide pedestrians and traffic.

- 6.5'-8' wide lengths with bridged or flat feet.
- Hot-dipped galvanized steel for outdoor use.
- Welded sign panel with ergonomic handle offers optional branding and messaging space.
- Uprights are inserted into the frame before welding to ensure durable connection that resists damage from broken welds.
