

Optimized value from the ground up.

We've taken decades of design experience to develop the ideal blend of ingenuity, quality, and affordability. The 7.5' Value Series stanchion features our G5 **RETRACTA-BELT®** mechanism, an exclusive 1 piece molded cap-to-clip cassette which decreases costs and increases durability. We've also optimized the 7.5' belt with the proper spring-to-base balance to ensure that the post remains upright the entire length of belt extraction. Many longer belt products on the market will tip or lean before full belt extension, defeating their usefulness. The low-profile cast iron base provides wheelchair accessibility and includes design details to ensure the post remains straight and your floors are free from scuffs and scratches.

It's all about the base.

Low Profile Base: ensures safe and steady travel for wheelchairs & luggage alike.

Exclusive EVERstraight® Technology: large diameter threaded steel base connection ensures post remains straight for its lifetime.

Scuff-proof ABS base cover.

0.625" Height.

Cast Iron Base: nearly indestructible.

Full Circumference Floor Protector: integrated design with air flow technology will not peel off like competitors glued on pads.

Specs

Post Material	Steel
Base Material	Cast Iron
Base Weight	17 lbs.
Total Weight	16.5 lbs.
Ship Weight (pair)	38 lbs.
Box Dimensions	40" x 15" x 4"
