

A fully permanent crowd control solution.

The ideal option for permanently established queue lines — economical and easy to install.

FIXED Mounted Post Features

- ▶ The most economical option in our permanent/ semi-permanent product line.
- ▶ Available in standard 10' or 15' **RETRACTA-BELT®** lengths, ADA-compliant Dual Line posts or display posts.
- ▶ **Easy to install:** requires three screws drilled into the ground (screws not included).
- ▶ **5" diameter base:** ensures a strong, permanently secured attachment to the ground.
- ▶ **Solid connection:** the steel post is welded to the steel base.
- ▶ **Durable:** steel construction throughout.
- ▶ **All parts are easily replaceable:** never need to unscrew the post from the ground for minor repairs or belt changes.
- ▶ **Versatile:** several finishes can be used outdoors.
- ▶ **Built in sign attachments.**
- ▶ **10 year warranty.**

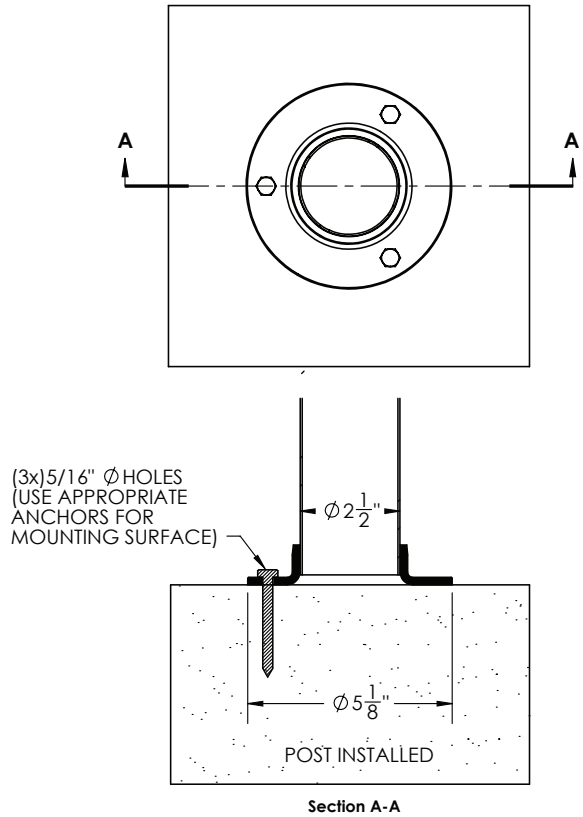

FIXED Mount Dual Line Post

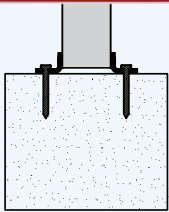

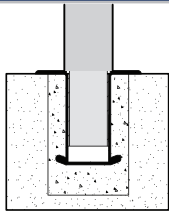

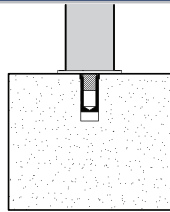

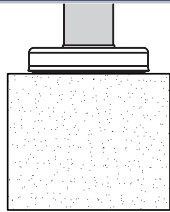

FIXED Mount Conventional Post

1. Determine which floor anchors and hardware are required for your floor.
2. Lay out post locations, spacing the centerlines at least 6" less than belt length (ex: 9'6" or less with 10' belt).
3. Orient your posts with belts facing in the proper direction and mark the three mounting holes locations in the base flange.
4. Drill three mounting holes for floor anchors.
5. Test fit and shim if necessary to plumb the post.
6. Tighten fasteners to secure the post to the floor.

For assistance with queue layout, please contact us.
Professional installation is recommended but not required.

In addition to the **FIXED** base mount, see our other mounting options to choose the best solution for you:

	FIXED	REMOVABLE	MINI-SOCKET	MAGNETIC
Summary	 5" Diameter base flange is permanently secured to flooring with 3 anchors (bolts)	 5" Diameter socket is permanently mounted in flooring. Rigid post is removable when not used	 0.875" Diameter threaded socket is permanently mounted in flooring.
